STILL BOMBARDING

Three Russian Cruisers Sunk and the Russian Bank at Port Arthur Destroyed.

SEVEN RUSSIAN SHIPS CAPTURED.

Five of the Czar's War Vessels Bombarded Hakodate on the Northern Coast of Japan.

The Russian Baltic Squadron of 15 Warships Passed Through Danish Waters En Route for Far East Around Cape Skagen.

London, Feb. 12.—In a dispatch from Shanghai dated February 12, 2 a. m., a correspondent of the Daily Telegraph says:

"The bombardment of Port Arthur continues. Three Russian cruisers have been sunk. The Russian bank building has been destroyed."

In a dispatch from Nagasaki dated February 10 a correspondent of the Daily Telegraph says:

"There has been a renewed attack on Port Arthur. The Japanese captured seven Russian ships and chased others."

"There have been disturbances at Port Arthur in which a number of Japanese civilians were killed or imprisoned."

"A Chinese mob has destroyed the telegraph line around New Chwang."

The Tien-Tsin correspondent of the Standard cables it is rumored that five Russian cruisers from Vladivostok bombarded Hakodate, Japan, on Tuesday.

(Hakodate is on the Island of Hokkaido, the most northern of the three Japanese islands. The harbor there is excellent and the town, containing about 56,000 inhabitants, is well and regularly built. There is a Japanese naval school there.)

In a dispatch from Copenhagen a correspondent of the Daily Mail says: "The Russian Baltic squadron of 15 warships passed through Danish waters Thursday en route for the far east around Cape Skagen; but, as a fierce storm was raging in the North Sea, the Russian admiral ordered the squadron through the Kaiser Wilhelm canal."

Vienna, Feb. 12.—Disquieting reports have been received here from Peking regarding the attitude of China in the Russo-Japanese conflict.

The Neuse Wiener Tageblatt says it is believed in well informed circles that the reported destruction of a railroad bridge in Manchuria is possibly the work of an advance party of "boxers," who, it is said, China is organizing for the invasion of Manchuria.

It is understood that the reports of several of the powers at Peking have informed their governments of China's intention to send 200,000 "boxers" to Manchuria.

PORT ARTHUR.

Reported the Japs Captured the Town and Destroyed Russian Fleet.

Cincinnati, Feb. 12.—The Cincinnati Enquirer publishes the following dispatch from London Friday morning:

London, Feb. 12.—One of the most conservative commercial houses in this city, with immense interests in the Orient, has received a message in cipher from its representatives in Chefoo that the Japanese have captured Port Arthur and destroyed the entire Russian fleet.

It was stated that the Japanese army first blew up the railroad 50 miles from the coast to cut off relief, then carried by assault the promontory overlooking the city and harbor. Mounting heavy artillery, they shelled the city and harbor, driving the Russian fleet out into the sea, where the Japanese battleships and cruisers met them.

In the resulting sea fight the Russian ships were either captured or destroyed.

The Japanese then attacked and captured Port Arthur, taking possession of the immense stores of coal and provisions.

It was also reported that the Japanese had planned explosions along the line of the Siberian railway, and that thus the czar's army in the far east was isolated.

While the startling message is given only on the authority of the London merchants it is in a measure corroborated by the Reuter dispatches.

THE PORT ARTHUR BATTLE.

An Entirely New Account of the Engagement There.

London, Feb. 12.—Statements of all kinds concerning the Port Arthur fight are published here Friday morning.

According to the Che Foo corre-

spondent of the Daily Mail the lack of preparation on the part of the Russians at Port Arthur was due to the fact that all the naval and military officers were attending a circus performance at Port Arthur which did not terminate until early Tuesday morning.

According to the correspondent of the Paris edition of the New York Herald at Che Foo the Japanese torpedo boats succeeded in entering the outer harbor by a ruse; they used the Russian flashlight signals. This correspondent adds that three Japanese torpedo boats were sunk with great loss of life.

A correspondent of the Standard at Tokio sends in Friday morning an entirely new account of the Port Arthur encounter. He says Adm. Togo's fleet arrived on Monday night and found the Russian squadron drawn up in battle formation outside the harbor and under the shadow of the fort, the destroyers being spread out in front over a distance of five miles.

Adm. Togo decided on a night attack and opened fire at 11 o'clock. While the cannonade was hottest a number of Japanese torpedo boats crept along close in shore at the foot of the cliff and succeeded, in the darkness, in getting between the Russian ships and the land. Here they lay unnoticed until the Russians began to re-enter the harbor. The Japanese torpedo boats then opened fire at comparatively close range and sank two battleships and one cruiser close to the entrance of the harbor. The effect of this coup was the retreat of the remainder of the squadron into the harbor. All was safe on board the Japanese ships at noon of Tuesday, the correspondent concludes, and the engagement was then still in progress.

SECRETARY HAY'S NOTE.

It Attracts Much Attention in Diplomatic Circles in St. Petersburg.

St. Petersburg, Feb. 12.—Secretary Hay's note to the powers has attracted much attention in diplomatic circles here. Any movement having for its purpose the limiting of the scene of hostilities is received with sympathy, but in certain quarters the practicability of the action suggested is questioned. A prominent diplomat expressed surprise Thursday that the preservation of Korea was not included in the note.

The wishes of the United States have been communicated to the Russian government, and presumably also to Japan. At the foreign office it is learned that no response had been made and it was considered extremely doubtful whether Russia felt herself in a position to make any declarations now, as these might hamper her military operations. The question was said to be one for the military authorities to decide and the representations of the United States, which are understood to be couched in the most courteous terms, probably will be referred to Viceroy Alexieff.

Permission Not Granted.

Berlin, Feb. 12.—It was learned here Thursday night that the request of Russia for permission to send warships through the Kiel canal has not yet been considered by the foreign office. Confidence was expressed at the Japanese legation that Germany would not grant this permission before informing the legation.

CENTRAL UNIVERSITY.

Rev. Dr. W. L. McEwen, of Pittsburg, Unanimously Elected President.

Lexington, Ky., Feb. 12.—Rev. Dr. W. L. McEwen, pastor of the Third Presbyterian church, Pittsburg, was Thursday unanimously elected president of Central university, of Danville, at a full meeting of the board of trustees, to succeed the late Dr. W. G. Roberts. The church of which Rev. McEwen is pastor is said to be the finest Protestant church in America. He has not yet indicated whether he will accept or not. He was born and raised in Frankfort, Ky., and graduated from Center college and Princeton theological seminary. Among those who had been mentioned for the presidency was John E. Yerkes.

Goes to Manchuria.

Owingsville, Ky., Feb. 12.—The news report that Maj. Henry T. Allen, of Sharpsburg, this county, had been appointed military attaché for this country at the United States legation at St. Petersburg was a mistake. Maj. Allen has been appointed official observer for the United States government of the Russian and Japan war, with headquarters in Manchuria, where he now is. Maj. Allen will at once go to the scene of hostilities.

Louisville, Ky., Feb. 12.—W. F. Ogden, cashier of the Kentucky and Indiana bank, at West Point, Ky., who has been missing since Sunday, left a letter in the vault, saying he was going to a near-by town and would return when the bank's directors assured him he would receive justice. His accounts so far seem all right.

BEDFORD MURDER MYSTERY.

Another Arrest in the Case Is to Be Made.

Bedford, Ind., Feb. 12.—Few people here believe that James McDonald has any connection with the murder of Sarah Schafer. That the local officials are in doubt is evidenced by the fact that the board of inquiry has been ordered to reconvene Friday. The order to reopen the investigation resulted from the receipt of information from a source considered reliable, calling attention to the presence in the city of a stranger whose actions indicate that he has knowledge of some crime recently committed. It is claimed that the stranger came to the city and engaged rooms at the home of a prominent citizen on the night preceding the murder.

The stranger who, it is said, will be examined by the board of inquiry Friday, is reported to have made the following statement Thursday night in Messick & Dodd's drug store:

"I will bet \$50 they have the wrong man. Who killed Sarah Schafer? I guess I know and there are others."

In appearance he resembles the tall man who stopped at the Park hotel the night of the murder, departing suddenly the morning Miss Schafer's body was discovered. Charles F. Grimes, proprietor of the hotel, was confined to his room Friday night by illness and was unable to identify the stranger, who will be formally placed under arrest Friday morning.

PRESIDENT'S PROCLAMATION.

He Declares Our Neutrality in the War Between Russia and Japan.

Washington, Feb. 12.—President Roosevelt Thursday issued a proclamation declaring the neutrality of the United States in the Russo-Japanese war. The document is lengthy. Citizens of the United States are prohibited from enlisting or entering into the service of either belligerent, either as a soldier, marine or seaman on board any vessel of war, letter of marque or privateer. From and after the 15th day of February instant and during the continuance of the present hostilities between Japan and Russia, no ship of war or privateer of either belligerent shall be permitted to make use of any port, roadstead, or waters subject to the jurisdiction of the United States from which a vessel of the other belligerent (whether the same shall be a ship of war, a privateer or a merchant ship) shall have previously departed until after the expiration of at least 24 hours from the departure of such last mentioned beyond the jurisdiction of the United States. No citizen of the United States shall be allowed to fit out and arm, or attempt to fit out and arm, or procure to be fitted out and armed, or knowingly be concerned in the furnishing, fitting out or arming of any ship or vessel with intent that such ship or vessel shall be employed in the service of either of the belligerents.

URGED DEFICIENCY BILL.

The House Concurred in Two Senate Amendments to the Measure.

Washington, Feb. 12.—The Panama question was under discussion in the senate Thursday after which the senate went into executive session for four hours.

House.—By a vote of 176 to 103 the house concurred in the senate amendment to the urgent deficiency appropriation bill authorizing a loan of \$4,600,000 by the government of the Louisiana purchase exposition, after amending it with respect to the manner in which the money shall be paid. The proposition was strongly opposed in the debate, which covered portions of three days. The house also concurred in the senate amendment to the urgent deficiency bill authorizing tests of coals and lignites at the St. Louis fair and non-concurred in all the other amendments proposed by the senate. A number of bills were passed, among them measures ratifying agreements with Indians in Minnesota and Montana.

Russia Had Fair Warning.

New Haven, Ct., Feb. 12.—Prof. Theodore S. Woolsey, of the Yale law school, an authority on international law, Thursday gave it as his opinion that in breaking off diplomatic relations the Japanese government gave a perfectly fair warning to Russia that war was at hand.

Frankfort, Ky., Feb. 12.—The bill to prohibit the adulteration and misbranding of orchard grass seed and other grass seeds was passed unanimously by the house.

PASSED THE HOUSE.

The Measure Which Reshapes the Breathitt Judicial District.

Frankfort, Feb. 12.—Senate.—The senate passed a bill absolutely prohibiting the sale and transportation of quail, pheasants and wild turkeys in this state, but killed the other game and bird bills. The Louisville "ripper" bill, authorizing the mayor to appoint and remove his executive boards at pleasure, which has passed the house, was postponed till February 25. This does not necessarily mean its defeat, but it shows the bill will have tough sledding to get through.

House.—The feature of Thursday's session was the passage of a bill creating a new circuit court district composed of the counties of Breathitt, Magoffin, Wolfe and Knott. It is claimed by some that if the bill becomes a law the Breathitt county troubles will break out afresh. Judge James Hargis and ex-Judge D. B. Redwine were both present Thursday and by their personal efforts aided in the passage of the bill. The house adopted a resolution providing for a thorough investigation of the accounts of the Agricultural and Mechanical college. The Lochy bill to allow the clerks to the appellate court judges \$100 a month was passed.

THE RUSSIAN EXHIBIT.

The Question of Abandoning It Is Under Discussion.

St. Petersburg, Feb. 12.—The question of abandoning Russian participation in the St. Louis exposition is under consideration. The merchants of Moscow Thursday notified Commissioner General Alexandrovsky that they would devote the money intended for the exposition to the Red Cross society and to assisting the war orphans and widows. They intend contributing \$500,000.

If it is decided to abandon the Russian exhibit the government will follow the example of the Moscow merchants and appropriate the St. Louis fund and the remainder of previous exposition funds, amounting altogether to \$225,000, to the Red Cross society.

HANNA IS WEAKER.

His Physicians Realize That His Condition Is Very Serious if Not Precarious.

SENATORS' PULSE RAN UP TO 104.

Doctors Are Awaiting Developments Realizing the Patient Has Lost Ground the Last Two Days.

Dr. Carter Remains at the Hotel All the Time So As to Be on Hand in Case There is a Call For Him.

Washington, Feb. 12.—Senator Hanna's condition is very serious, if not precarious. His physicians realize this and are watching the case with the greatest concern. The senator was considerably weaker Thursday and as a result his pulse had run up at 6 o'clock to 104 pulsations to the minute. The increased weakness is the direct result of the fever, as the official bulletin shows there are no complications. The physicians hope that the fever has reached its worst stage, but whether or not it has they declare they are unable to say.

They are simply waiting for developments and realize the patient has lost ground the last two days. Stimulants have been given the senator during the day and with beneficial results. He rested well during the afternoon and has retained the nourishment given him during the past 24 hours. This latter feature of the case is encouraging to the physicians. Extraordinary precautions are being taken to insure quiet in and around the hotel so that the senator may get all the natural sleep possible. Motormen of the street cars almost a block away have been requested not to ring their bells, as their sudden clanging seemed to irritate the senator. After the evening visit of the physicians Senator Hanna slept for about an hour and a half which considerably refreshed him. Dr. Carter remains at the hotel all the time so as to be on hand in case there is a call for him.

The following bulletin on Senator Hanna's condition was issued Thursday night, signed by Drs. Rixey and Carter:

"At 8 p. m. Senator Hanna was resting quietly. His temperature when taken at 6 o'clock was 102.2-10, pulse 104, respiration 28. There has been no change in his general condition since the morning bulletin was issued. He retains all the nourishment given him for the past 24 hours. There are no complications."

Des Moines, Ia., Feb. 12.—Miss Hulda Nelson, a young woman school teacher of Fort Dodge, Ia., in a moment of insanity, brained her mother with a hatchet while the latter was sleeping and then jumped into a cistern, drowning herself. The young woman was about 26 years old. She had been teaching in the Wahkonsa school at Fort Dodge and had to relinquish school work on account of ill health. After braining her mother the young woman tied three flat irons about her own neck and then took the fatal leap to the bottom of the cistern. Coroner McCreight, of Fort Dodge, is investigating.

WAR

It now appears that war is certain between Japan and Russia. This is to be regretted. However we may deplore the fact that such barbarous means are being resorted to for the settlement of national differences, the fact remains that these nations must be fed, clothed and supplied with horses and mules for cavalry and transportation purposes. Who will do the large part of this? The American farmer. Now is the time to buy land and get ready to help supply the market with the above named articles at high prices. I have the land for sale. The many friends of Mr. and Mrs. Robert T. Marshall will sympathize with them and their stricken family in the death of their dear, bright little boy Keith, who died at their home in Fleming County Wednesday night of spinal meningitis, aged seven years. He was an exceedingly attractive and sprightly child and the pet of the household, particularly of his grandmother, Mrs. Jane T. Marshall. He was buried this morning by the side of his grandfather, Mr. Charles Marshall, in Mt. Carmel Cemetery.

TO MEET MISS TYLER.

Brilliant Social Event at Covington In Honor of One of Germantown's Lovely Daughters.

The Times-Star says a brilliant society affair of Thursday was the "at home" which Mrs. A. J. Whipps and Miss Walton of Covington give from 3 to 6 o'clock, to meet Miss Ida May Tyler, of Germantown. The house was elaborately decorated.

Mrs. Whipps wore a toilet of black silk, with touches of rare lace, Miss Walton, pearl brocade, with pointe Venice lace and pink panne velvet, Miss Tyler, the debutante, a dainty gown of white crepe de Paris, with lace yoke.

Mrs. James Rust introduced a second line of charming buds, including Miss Mildred Bradford, gowned in white crepe de chine; Miss Ethel Beck, in blue silk mull; Miss Lucy Wilson, wearing a pink silk, and Miss Mary Tyler, in white silk crepe, lace trimmed.

In the library, white hyacinths and lilies of the valley gave a tone of early spring. Miss Helen Russell, Mrs. Ida Victor Foster, Miss Alice Taney and Mrs. Louis Casey assisted. In the dining room La France roses formed the center decorations, while the room was given a rosy glow by the lights from pink candles in the candelabra. Mrs. Pierce Burton Warner and Mrs. Louis W. Johnson presided. A buffet luncheon was served. A string orchestra played during the afternoon, and some two hundred guests called.

Pickett's barns was wrecked and Perrine Osborne's barn containing about 4,000 pounds of tobacco was blown down and his tobacco considerably damaged. The wire was blown from the telephone poles for a distance of 800 feet between Dover and Minerva and could not be found. It is claimed by some that it was burned up by lightning.
